# Style That Works Instantly

*Designed to instantly smooth, shape, and support your body so your clothes fit better and you feel confident from the first moment*

## How It Works

- **Instant shaping technology** that helps reduce up to 2-3 sizes the moment you put it on
- **Targeted compression** in the waist, abdomen, and back to smooth and define your natural curves
- **Flexible support** designed to move with your body, so you feel secure, comfortable, and confident all day

**Curious? Ask me how it works.**
