Payment Methods Explained

Wire Transfer: Once selected, you will be asked to input your banking information: Bank name, Routing number, and Bank account (if you are from the US) or Bank Name, Bank account, SWIFT Code (if international). Please be aware that the bank account name must be the same as the owner of the Ardysslife account. In the case of Wire transfers, they have a cost of \$30 US dollars, so this option is recommended when your earnings are higher than \$200.

E Wallet: Please be advised that it is a third-party provider; Ardysslife does not own the platform. Once you select this payment method in your back office, you will receive an email with instructions on how to complete registration. So, it's important that you have access to the email you entered when you registered with ArdyssLife. This platform is easy to use and helps avoid lost checks through the mail. The process between when you request your commissions and when they get reflected in your bank account can vary depending on your bank, but on average it will take between 24 to 72 hours. There is a \$20 minimum commission.

Store Credit: You can choose this option, and the commissions will be placed as store credit so you can use them towards your personal purchases.

Checks: This payment method is only available for distributors living in the US. This option is recommended when your earnings are higher than \$100. There is a \$5 Processing Fee.
