

The Benefits of Le'Vive Essentials Combined

Wellness Wednesday

June 07, 2023

**What's the MOST important
goal for these Wellness
Wednesday calls?**

To help you **SELL** the products!

How will this change?

We'll still talk about interesting research and ideas on aging well, cellular nutrition, how the body works, and more - but I'm going to present that information in a way that you can **repeat and share** that information.

Selling Le'Vive Essentials as a PACKAGE:

1. How the products SUPPORT each other.
2. How some of the ingredients WORK TOGETHER to provide benefits.

ARDYSSLIFE™

The cells in our body
are the engine, and
they are using up all
these nutrients every
single day, just like
our car. Except with
our body, they use up
all those nutrients
EVERY SINGLE DAY,
and need more...
every single day.

BIOFOOD

**How do all those
fluids get to the
different parts of the
car engine?**

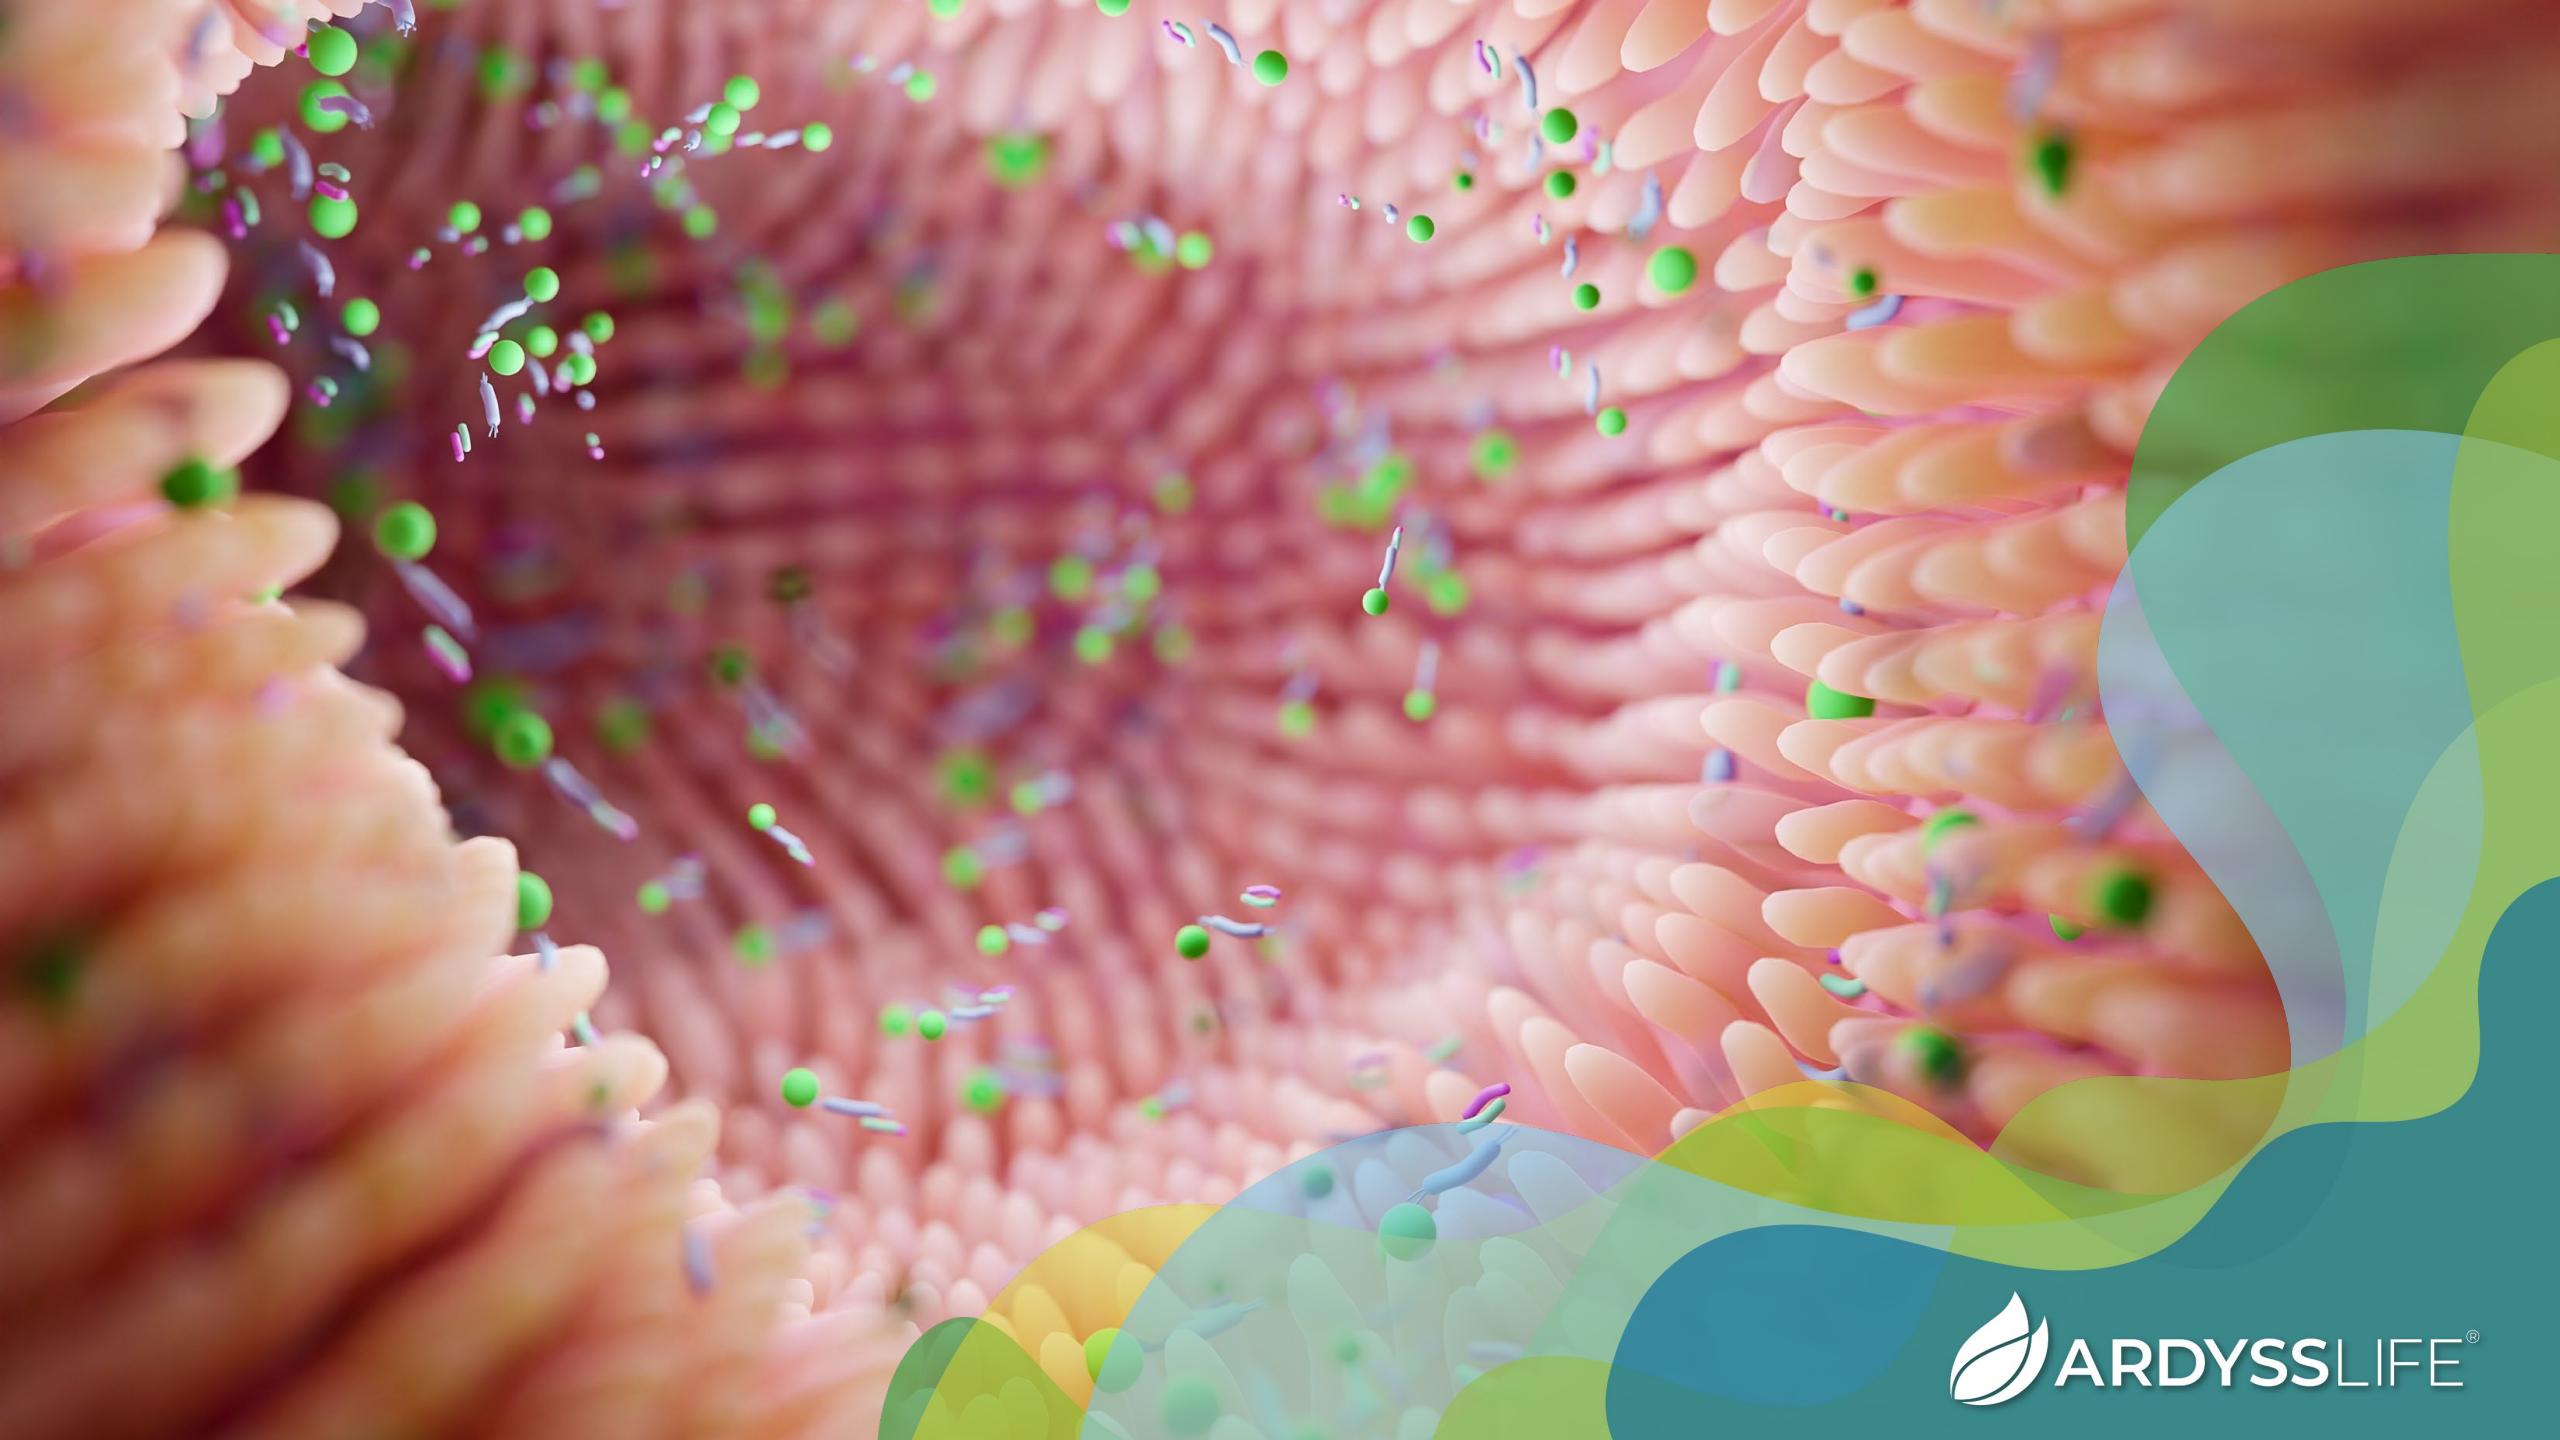

Hoses and Tubes

LIFE®

Our bodies don't
have “caps” for
our tubes and
hoses.

**Does 3 things for
your “engine”**

1. Battery

“A car battery uses lead-acid technology to turn **chemical energy into electricity**. It accomplishes this through the **usage of cells**, which contain and store the energy until needed.”

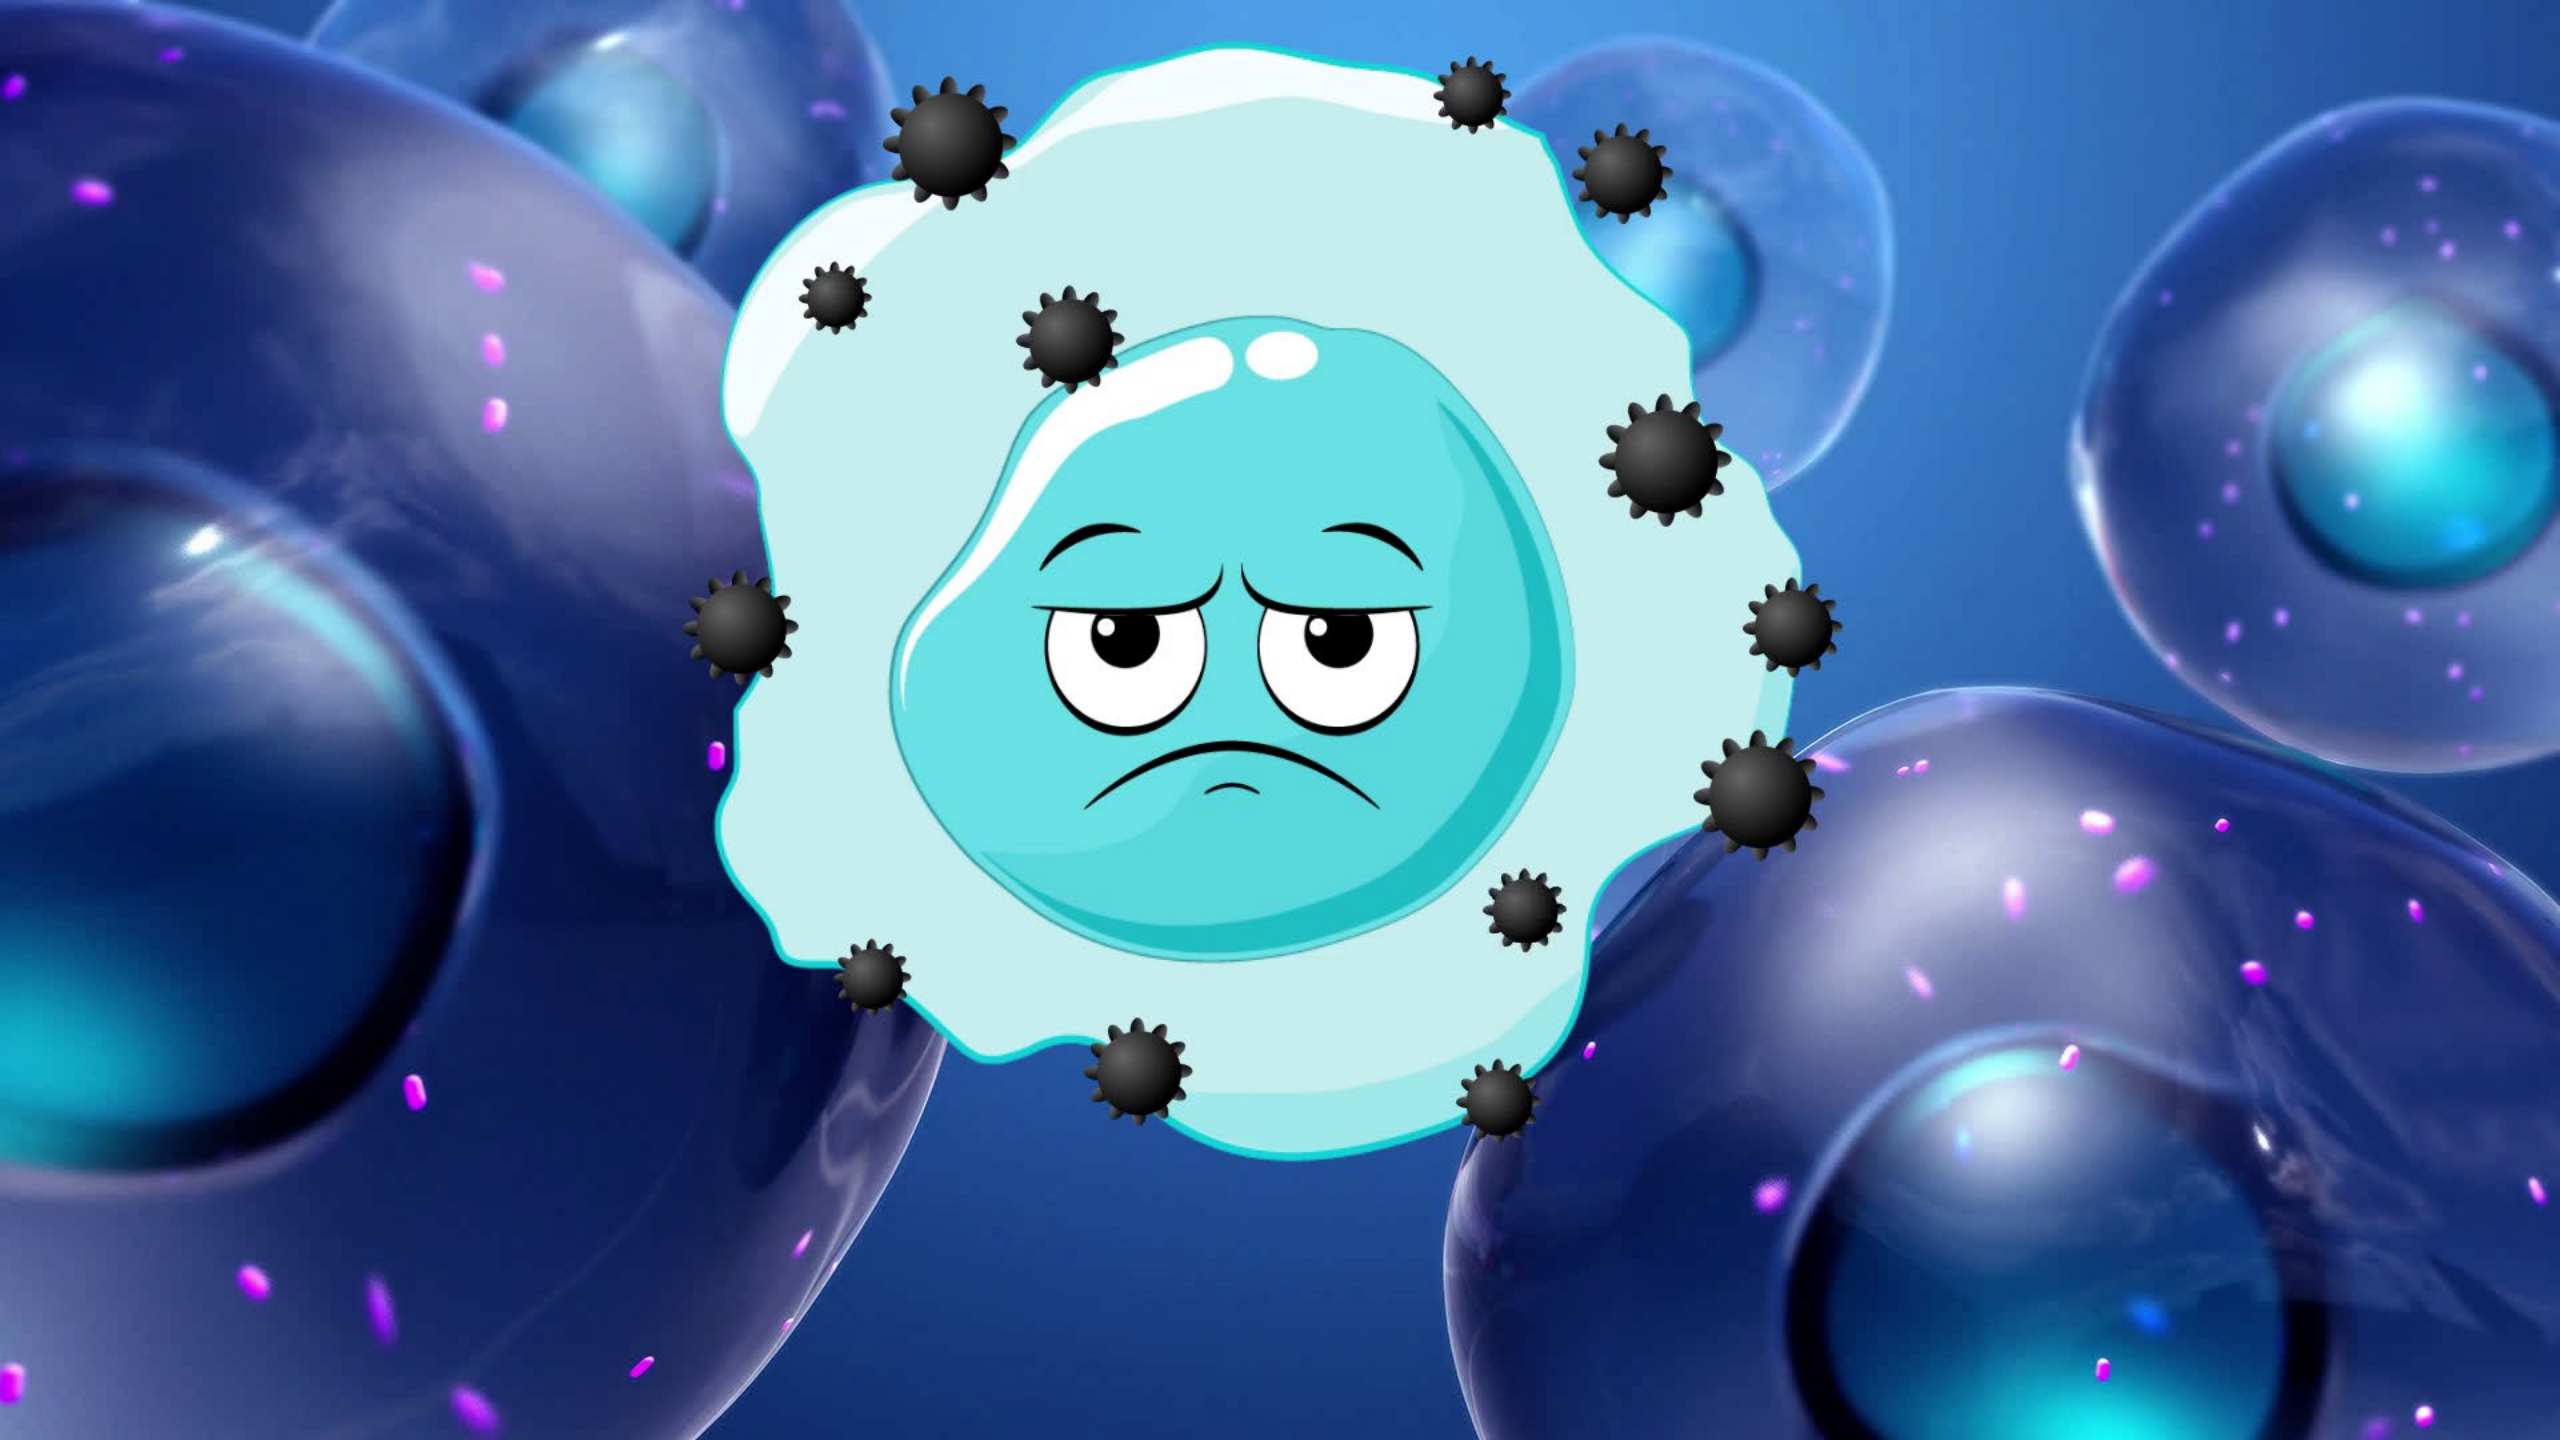

2. Rust Protector

Treats the **oxidation** (rust) on our cells.

FREE RADICALS

3. Fuel Additive

“Fuel additives are chemicals that can be added to gasoline to **improve vehicle performance or help maintain systems**. They can serve a variety of purposes, including: cleaning systems to remove deposits. **Improving gasoline flow through systems.**”

**Keep our engines
WORKING!**
